

## DEMOLITION

DALLASWHITE performs all demolition with precision and impeccable attention to detail and safety. Our skilled team is experienced in minor demolition such as carpet removal, drywall removal, and partial structural demolition as well as large scale projects that require demolishing entire buildings. Whether performing minor demolition or demolishing an entire building in the aftermath of a catastrophic event, our crews treat each project with the same care and expertise.

As part of our contribution to our environment, DALLASWHITE makes every effort to recycle all debris produced from the demolished structure. We take great pride in performing demolition services for properties that are being readied for new green construction initiatives or green space, such as playgrounds and parks.
